

Future Leaders Week is a simple way for BNI professionals to offer young people aged 15-18 career orientation advice within their local community. For one week, October 15 – 21, 2023, we are asking Chapters to engage with a local school to provide career advice, networking tips, and to show how business owners work together to be more successful.

There are various ways for your Chapter to participate in BVFL. These include but are not limited to:

- A group of volunteer Members visit a school and talk to students about their careers.
- The weekly Chapter Meeting is held in the school and volunteer Members stay after to talk about their careers.
- If no school is available, the career orientation event can be held in a local young people's club.

[Click here to register for BVFL on the BNI Foundation website!](#)

HOW IT WORKS

- Project overview and information distributed by GST and National Offices.
- Chapters sign up to participate, ideally on the same day they normally meet.
- BNI Foundation sends your Chapter all the necessary information to successfully participate.
- Chapter reaches out to a local school - wording suggestions provided by BNI Foundation.
- Career Orientation session and/or Weekly Chapter Meeting held in the school.
- Chapter reports number of Members and Students in attendance and submits any photos or videos from the day.
